PROFESSIONAL EXPERIENCE .

Subcodevs Inc(May 2024 currently working here) React native and React js)

Designed and developed numerous **live iOS apps**, achieving high ratings and widespread adoption in the App Store.Led end-to-end development of mobile applications, from requirement analysis and design to deployment and maintenance.

Led entire app development lifecycle from planning, coding, and testing to deployment and maintenance.

Mentored junior developers and contributed to agile product planning and delivery.

Delivered innovative solutions across industries, specializing in **user experience**, **performance optimization**, and **secure integrations** with third-party APIs.

Played a key role in mentoring teams and driving projects through the **Software Development Life Cycle (SDLC)** and **Product Development Life Cycle**.

Kickr Technology (Feb 2023 - 12 Feb 2024) React Native

Identified key features and functionalities of the app.Designed a user-friendly interface with easy navigation.Integrated necessary APIs for user authentication and data retrieval

Managed releases on Google Play Console, including .aab upload, content rating, and release configuration.

VedangSoft Private Limited (Feb 2020 - March 2021) React Native

Delivered a 60% performance boost through the Cauvery Calling project using React Native.

Collaborated with cross-teams to build the Pranee Core feature. Implemented react native UI enhancement and animations, resulting in a 45% increase in average sessions.

CETPA, Noida (Internship)   June -August 2019
Big Data Analytics. Hadoop

PROJECTS .

1. **Pocketi**
   Developed features like **Scan to Pay** (QR code payment integration) and **Chat Services** for enhanced communication.
   Integrated payment platforms such as **Mobile Money** and **Paystack** to simplify invoicing and streamline payment processes for small businesses.

2. **Brigiz**
   Developed and launched a customer-business platform, enhancing the local business ecosystem.
   Implemented strategies to improve the visibility of service providers, resulting in a **30% increase in customer engagement and convenience**.

3. **Galoiz** E-commerce & Multi-Service App
   Developed a feature-rich mobile application offering a seamless shopping experience, integrated with real-time order tracking, **secure payment gateway(Stripe)**, and multi-vendor support. Implemented intuitive UI with React Native and managed data flow efficiently using Redux. Focused on enhancing user engagement through personalized product recommendations and **in-app notifications**.

4. **Catchwoo**
   Catchwoo is a dating application for users. We are using the SDK of ZegoCloud for video calling configuration and for messaging **ZEGOCLOUD's chat SDK and UIKit**. Integrate Payment **gateway PAYG** for buying coins.

5. **Child Tracking**
   This project gets calls, locations, messages, or even those late-night social media pings. But that's not it. It's like a safety locker, too, keeping a backup of your data and making sure your phone is always in safe hands. With Phone Tracker, you can track current background location.

6.. **MGAS**
   This project helps to improve and enhance skills. He is a memory guru, motivational speaker, and life-changing counselor. He was always appreciated for his motivational part. This project is made with the help team and the College Faculty.

7.. **GrocecyItem**
   Collaborated with cross-functional teams, including UI/UX designers and backend developers, to ensure seamless integration of features and a user-friendly interface. Using the Redux tool kit, add the item to the cart.

Technical Skills .

- **Mobile Development**: React Native, iOS Configuration, Android Studio.
- **Web Application**: React Js, CSS, Tailwind, Material UI.
- **Programming Languages & State Management**: JavaScript(ES6+), Redux, Context API, Java, HTML, and CSS.
- **Development Tools**: Xcode, GitHub, Firebase, REST APIs, Visual Studio, Bitbucket, GitLab, Clickup.
- **Methodologies**: Agile Development, SDLC, Product Development.
- **Payment Gateways:** Stripe, PayStack, PAYG, Razorpay, Payu, Phonepe
- **Specialized Integrations**: QR Code Scanning, Chat SDKs, Video calling SDK. (Zego cloud)

EDUCATION .

GLA University, Mathura   May 2023
Bachelor of Technology, Computer Science

GLA University, Mathura   July 2021
Diploma, Computer Science

Achievements .

- Successfully deployed multiple high-performing apps, achieving **over 60% performance improvements** in key projects.
- Contributed to **enterprise-level application development** while ensuring **high code quality and performance optimization**.
- Developed and optimized **React Native applications** for industries like **e-commerce, education, and small business operations**.
